The use of the foregoing Table for the Purchaser of Leases &c.

THe Table consists of five Columns.

The first contains any number of years that are to be Purchased from 1 year to 100

The 2 tells you how many years and odd Months purchase, such a Lease is worth in ready Money, 5 lb. per cent. being allowed for the Interest of the Money laid out.

The 3 Column shews, what the same is worth at 6 lb. per cent. The 4 at 9 lb. per cent. and the last at 10 lb. per cent.

Example What is a Lease of 51 years to come, worth in ready Money, at 5 lb. per cent. All's

Look in the first Column for 51 years and right against it under 5 lb. per cent. you shall find 18. 3. which shews the Lease is worth 18 years purchase, and 3 months, which is a quarter of a year. So that if the Rent were 10l. a year, then 18 times 10l. is 180l. and the quarter of the year is 2l. 10s. and 2 is 182l. 10s. and so much is the Lease worth in ready Money, at 5 l. per cent. But if the Purchaser would have 6l. 8l. or 10l. profit for his Money, then let him look under the respective Columns of 6l. 8l. and 10l. per cent. and he shall have his desire.

A Table Shewing the Price of the Great Hundred, or 112l. at any Price from One Farthing the Pound to Eighteen Pence the Pound, and the contrary.

The ſecond Tueſday in January, The Tueſday before Eaſter, The firſt Tueſday in July, the Tueſday before St. Luke at Potton in Bedfordſhire.

Advertiſement.

Dr Bateman's Spirit of Scurvy-graſs, famous for the Cure of the Scurvy, Gout and Dropſie, &c. is ſold as finely in St. Paul's Church-yard at Doctors Commons as at the Houſe. 19

TO know the time of the day by your hand, take a straw 4 inches long: Hold it upright with your thumb, then turn your body and hand to the Sun, till the shadow of the ball of the thumb reach to the line of life, and the shadow will point at that part of the hand which sheweth the hour of the day, &c.
